

5 BEST WAYS TO MAKE MONEY FROM HOME

Pros & Cons of the 5 Proven (and Legitimate)
Ways to Start Making Money from Home In 5
Days or Less... With Zero Experience!

WELCOME

Hello my friend, and welcome to this unbiased **'5 Best Ways to Make Money From Home'** PDF report!

You're reading this report because you are interested in the best possible options to make money from the comfort of your home.

Whether your goal is to **make a few hundred dollars per month** to help relieve some financial stress during these crazy times... or if you want to **build a six-figure business**, or more... **ALL of it is possible.**

But if you're anything like I was when I started looking to create income from home, you may feel a bit confused, overwhelmed and have no clue where to start!

Trust me my friend, **YOU ARE NOT ALONE!**

There's a lot of garbage to sift through out there, but YES it

is definitely possible to **make good money from home through legitimate, honest work.**

And the best part is this report includes all the research (*and boots-on-the-ground intel*) I've compiled for YOU!

With this quick report you can choose the best option for you, and **start earning money from home THIS WEEK!** (*Or even within the next 24 hours!*)

When it comes to creating a real income from home, and taking back your financial life and freedom...

The hardest part is knowing where to start.

In this 'Make Money From Home' report I'm going to give you **the proven and legitimate ways to create cash from home including where and how to get started right now.**

Here's a snippet of what you're about to find out...

How to **get actual cash in your hand within the next 24 hours...** to pay bills, get out of a financial crunch, invest (or just stuff in your bank account!)

The fastest way to **finally get paid what you're worth, for doing what you do best** (and actually LOVE doing!)

How to **grab a piece of a \$4.9 TRILLION dollar pie, and create a full-time income** (starting with less than \$100 bucks)

A sneaky way to **get paid from the work that someone else has already done for you** (without touching ANY products!)

How to ethically leverage 100's (or even 1000's) of OTHER people's time and effort...and **create a life-style that most only dream about!**

Now that I've hooked you, let's dive in to **The 5 Proven (and Legitimate) Ways to Start Making Money from Home in 5 Days or Less... With Zero Experience!**

OPTION #5

SELL YOUR STUFF!

If you're in a bind, late on bills, or need money immediately, there's a time tested strategy that's worked for ages.

It's called cleaning out your home and selling the stuff you don't want, don't need, or don't use.

We've all been there, where we need money in a crunch.

Of course we used to have yard sales for that (which is still an option).

But now instead of dragging everything out of your garage, and going out and painting the town with your Yard Sale signs... you can simply post your items online.

You can list your stuff for sale locally for pick-up or drop-off on sites like...

- **Facebook Marketplace**
- **Craigslist**
- **LetGo**
- **And More!**

Or you can ship items on...

- **Amazon Marketplace**
- **Ebay (yes it's still a thing)**
- **Bonanza**
- **And plenty of others.**

While the next 4 strategies will give you ways to earn bigger money from home, selling your stuff is one of the fastest (and easiest) ways to get quick cash in your hand right now!

BONUS TIP!

Use stories in your listings. You can make ANY product more interesting by adding a story that pulls people in, and gets them emotionally involved in the product.

In fact, in 2006, New York Times Magazine journalist Rob Walker proved it when he set out to show how powerful emotional stories are for selling even the most mundane items!

The results were that he took 200 very insignificant thrift items (with an average cost of \$1.25) and re-sold them at a 6,395% increase) using stories!

In other words, he spent \$197 and sold them for \$8,000!

Use stories to sell your stuff, and you'll likely get paid MORE for each item!

THE PROS & CONS OF SELLING YOUR STUFF

PROS

- You Could Get Cash Extremely Fast
- You Get Rid of Clutter In Your Home
- Zero Technical Experience Required

CONS

- ✗ You either have to ship the product yourself, meet your customers in a parking lot, or give them your home address to pick up the goods (*which is NOT recommended nor ideal*).
- ✗ You only have so much stuff in your house to sell
- ✗ Not a long-term sustainable option (unless you consistently buy more stuff to sell on e-bay, etc)

OPTION #4

PROVIDE A SERVICE / FREELANCING & VIRTUAL ASSISTANT

Chances are you already have a skill that others will pay you for.

There is something YOU do well that they don't.

There is probably something YOU enjoy doing that others simply don't have time to do themselves.

More and more businesses and entrepreneurs are hiring freelancers and virtual assistants these days than ever before.

It's much easier, and requires less overhead than hiring full-time employees.

WHAT CAN YOU GET PAID TO DO?

- **Customer Support**
- **Technical Support**
- **Web Design**
- **Writing/Blogging/Copywriting**
- **Graphic design**
- **Video editing**
- **Proofreading**
- **Web Development**
- **Virtual Assistance**
- **Internet Marketing**

Just to name a few.

And if you need money quickly, you can be performing one of these services within the next week for a client who will pay you for your skills.

It's easier than ever to get started.

Sites like Fiverr, Upwork, TopTal, and Simply Hired are great places to start.

The best part is that it's as simple as creating a profile on one of these sites, and applying or submitting proposals for jobs.

Of course you can market your skills on your own through social media sites like LinkedIn or Facebook, or even your own website to find your own clients!

You can provide services either part time, and even turn it into a full-time career!

And it sure as heck beats driving people around for Uber or Lyft, or delivering food for DoorDash!

THE PROS & CONS OF BEING A SERVICE PROVIDER

PROS

- **You Get Paid to Do What You're Good At or Love Doing**
- **You Can Get Started Quickly**
- **Work from Home**
- **Create your Own Hours Around YOUR Schedule**
- **Quickly Increase Your Fees as You Build Your Reputation!**

CONS

- ✗ **It Takes Time to Build your Reputation**
- ✗ **You'll Have to Deal with Some Difficult Clients**
- ✗ **There Are Strict Deadlines**
- ✗ **You'll Be Hustling for Gigs (especially in the beginning!)**
- ✗ **You're Trading Your Time for Money**

OPTION #3

START AN ECOMMERCE STORE (SHOPIFY OR AMAZON)

In case you haven't noticed, Ecommerce is massive around the entire world. And the stats speak for themselves...

By the year 2021, worldwide retail ecommerce sales will reach \$4.9 trillion. (source: Shopify Plus, 2019)

Anybody can create an Ecommerce store, and therefore the playing field has been leveled.

And you don't need to be as big as Amazon to make good money in ecommerce (FYI - don't worry if you're not as big as Amazon, nobody else is either).

The good thing is, you only need a tiny share of the market to earn a part time, or even a massive full-time income!

HERE ARE THE 5 SIMPLE STEPS YOU NEED TO TAKE...

STEP 1: Find a hungry market to sell to!

Most people will tell you to start with the product.

The secret is starting with finding a hungry market, and figuring out what they're buying. (Good examples of a hungry market are health / weightloss, skincare, pets, survival, golf, just to name a FEW of them!)

Step 2: Choose the Products You're Going to Sell!

What are the items these markets are already spending money on now? What are the hot items in the niche? Even better, what do they buy over and over? You don't even have to create your own products.

The fastest way to get started is with a strategy called drop-shipping. This means you don't have to stock your garage full of products. You simply order the products that people buy from the manufacturer or fulfillment center, and they ship it directly to your customer.

Step 3: Find a Platform to Sell Your Products On?

It's easier than ever to set up your ecommerce store online. Amazon FBA selling is a great way to let Amazon handle a lot of the grunt work including storing and shipping your product (Amazon FBA = Fulfilment By Amazon).

There are also tons of platforms that make it possible for anyone to create their own ecommerce store with simple drag and drop features including Shopify, Magento, WooCommerce, and Wix (and plenty more!)

The most popular, and easiest for the new online ecommerce store owner is Shopify!

Shopify will give you the tools you need to get started fast, including...

- **Your Storefront (with professional themes)**
- **A Professional Shopping Cart to Process Orders**
- **Your 'Store Manager' (to handle all communication and data collection of customers)**

- **Inventory Management**
- **Web Hosting**
- **SEO & Marketing Tools**
- **Analytics**
- **And even 24/7 Support**

Step 4: Get Your Domain Name!

Your domain name is how people will find you online. It's like the sign on the front of your offline store on Main Street.

Once you figure out what you'll name your website, you can go to a domain provider like GoDaddy and purchase your domain name in just a few quick and easy steps.

Step 5: Promote Your Store!

You need to get eyeballs to your store and product pages. You can do this with methods like SEO (search engine optimization), paid ads (Facebook ads, Google Adwords, etc.), or even free social media marketing.

PROS AND CONS OF STARTING YOUR OWN ECOMMERCE STORE

PROS

- **Low Start Up Cost (Start for Less Than \$100)**
- **No Experience Necessary (Learn as you go!)**
- **Sell to a Worldwide Market**
- **24/7 Operation (Sell and Make Money Night and Day!)**
- **Run Your Store from Home**

CONS

- ✗ **Competition Is Fierce**
- ✗ **Steep Learning Curve to Marketing Your Products**
- ✗ **Dealing with Unhappy Customers**
- ✗ **Shipping (If you don't use dropshipping)**
- ✗ **Potentially Low Profits on Purchases**

OPTION #2

AFFILIATE MARKETING

Affiliate marketing is a strategy where you get paid a commission for selling OTHER people's products.

This is one of the easiest ways to get started earning online because you don't have to create your own products, or even have a website.

You can sell virtually anything as an affiliate, including but not limited to...

- **Information Products (ebooks, courses, workshops, etc)**
- **Physical Products**
- **Big Brands (Amazon, Target, Best Buy, Nike, Expedia, you name it!)**
- **Software Programs**
- **And Even Some Professional Services!**

The options are endless.

Affiliate marketing can become a very lucrative way to make money from home.

You can earn hundreds to thousands of dollars per month... all the way to super affiliate status where you're earning tens of thousands to even hundreds of thousands of dollars per month.

Commissions range from 2% to 10% on the lower side, and up to 50% to 75% on the higher side (so you would pocket anywhere from 2% - 75% of the sale on the product you didn't even have to create).

The steps are somewhat similar to starting your own store. The main big difference is that you don't have to do any of the transactional duties, or even own your own website.

You'll get an affiliate link coded to YOU, and when someone clicks on YOUR link, and makes a purchase... the company simply sends you a commission notification and payment (depending on the terms of the product owner!)

Here's are the steps...

Step 1: Choose the Market You Want to Sell To and the Products You Want to Sell!

Again, you'll want to choose a hot market where people are already buying! Once you find that, then you'll want to find the products they are buying most!

Step 2: Find an Affiliate Program or Affiliate Network!

Once you find the products you want to sell, you can see if the product owner has an affiliate program (there is often a link at the bottom of their page if they have an affiliate program option).

Once you sign up as an affiliate, you'll get your own personal link to start promoting.

OR you can use an affiliate network that acts as a vendor or intermediary between the product owner and affiliate.

A couple of the more popular affiliate networks are...

- **Clickbank (mostly info-products)**
- **JVzoo (info products)**
- **Rakuten Marketing (Big brands and physical products)**
- **Share-a-Sale (mostly physical products)**
- **MarketHealth (for physical health-care products)**
- **Plus MANY More**

Step 3: Promote Your Affiliate Link!

There are various ways to get your link out in front of people online.

- **Create content (articles, videos, blog posts) around the benefits of the product or niche the product is in**
- **Social Media Marketing (social media posts, groups, your business page, etc.)**
- **Paid ads (Google Adwords, or Facebook ads!)**
- **Create a sales funnel: Give them a free report - like this one -- in exchange for their email address, and then send them emails to get them to buy your affiliate products!**
- **And plenty more!**

PROS AND CONS OF AFFILIATE MARKETING

PROS

- **Low (or even zero) Start Up Cost**
- **No Experience Necessary (Learn as you go!)**
- **Sell to a Worldwide Market**
- **24/7 Operation (Make money while you sleep!)**
- **Potential for Huge Income!**

CONS

- ✗ **Massive Competition**
- ✗ **You Don't Own Your Customer Base (unless you create sales funnels)**
- ✗ **Not knowing which strategy to start with (Hint: Choose just one to start with!)**
- ✗ **Internet Marketing Learning Curve!**
- ✗ **Shady Vendors and Competitors Can HiJack Your Links!**

OPTION #1

NETWORK MARKETING (DONE RIGHT!)

Network marketing (also known as M.L.M. or Multi-Level Marketing) is a proven business model that harnesses the power of person-to-person marketing and sales.

It's also one of the business models I personally stand behind because of the unlimited earning potential and leverage it provides.

Here's how it works...

Instead of a company relying on mass advertising or conventional retail strategies to get people to buy their products or services, network marketing companies believe in the power of people like you and I (a.k.a distributors or reps) to market and sell their products.

And for doing so, the company pays the distributor a commission when a sale is made.

Where network marketing shines over affiliate marketing is with:

A) Highly leverage lucrative compensation plan that is virtually limitless

B) Monthly autoship product purchases create monthly cashflow for you

Network marketing allows you to recruit

a team of other distributors below you to sell the products as well.

And when your team makes sales, you earn commissions from those sales too... since YOU are the person who brought them in (also known as their Sponsor).

Those people are also allowed to recruit people into their team, and so you get paid on their product sales as well. And it goes on and on down the line! (Which is why your team is referred to as your "downline.")

What I just described is LEVERAGE. YES, you can earn real residual income that comes to you month after month like clockwork.

HERE ARE THE 5 STEPS TO GET STARTED...

Step 1 - Find a Good Sponsor!

One of the secrets with network marketing is finding a sponsor who will support you, and train you. This is key to creating a profitable business and team.

You need someone with a proven system to show you how to actually grow your business. And then you will turn

around and plug YOUR team into the exact same training system.

This creates duplication on down the line so EVERYBODY wins!

Here's the tricky part...

Network marketing companies often tell you to do things like make a list of everyone you know (your 'warm list')... and then hound them until they buy your products or join.

There is value in initially seeing if your warm market is open to your products or opportunity (warning - there is a wrong & right way to do this by the way)...

But what happens when you exhaust your warm market and have nobody left to talk to?

Additionally, this approach will cause you to face TONS of rejection and/or be labeled as a spammer on social media, which we both know is NOT fun.

So that's why you should find a good sponsor FIRST!

Someone who has a proven marketing system you can plug into to attract interested prospects to you, and get them to buy or join!

Many sponsors will sign you up and disappear. That's just the truth.

Not with me. When you join me in business, you get personal training, support, tools and systems to help you succeed!

Hint: You're here reading this because I understand marketing. We may not have even spoken yet. See how easy that was? I'll teach YOU to do the same thing.

BONUS HINT!

You're here reading this because I understand marketing. We may not have even spoken yet. See how easy that was? I'll teach YOU to do the same thing.

Step 2 - Join the Company at the Highest Level Possible!

Once you find the right sponsor, you'll sign up in their company under them.

Most companies have different levels of entry: A lower priced level, and higher priced levels. Higher levels usually get you more product and usually pay you higher commissions.

Not to mention, your level of commitment often coincides with the investment you make in YOU!

This is why it's best to join at the highest level in the company that you can afford.

Step 3 - Be Coachable and Do What Your Sponsor Tells You!

Again, if you've taken the time to find a successful sponsor, then your best bet is to not try and reinvent the wheel. Simply do what they did to become successful, and your chances of success will be much higher.

In the beginning you'll have to break out of your comfort zone.

You'll have to learn & implement new marketing strategies, and learn to use marketing systems & communication skills you likely have never learned or used before (don't fret my friend, I've got your back!)

You'll have to TAKE ACTION as your sponsor gives you the steps to attract prospects, turn them into leads, and turn those leads into customers and new sign-ups.

The faster you take action, the faster you'll start earning and

building the business of your dreams!

Step 4 - Support and Train YOUR Team!

This is vital. As you start getting the hang of your new skills, you simply show YOUR team what your sponsor showed you by plugging them into the proven marketing SYSTEM.

And if you ever get stuck that's what YOUR sponsor is there for! Remember, they have a vested financial interest in YOU doing well and winning!

Step 5 - Watch Your Business Grow and Profit!

As you take the right actions consistently & quickly to grow your business, you will start to realize that you're creating the kind of lifestyle that most people only dream of.

It gets fun and very profitable faster than you can imagine as you TAKE MASSIVE ACTION and create momentum!

PROS AND CONS OF NETWORK MARKETING

PROS

- **Low to Moderate Start Up Cost**
- **A Sponsor to Support You**
- **Personal Training & Marketing System for Success**
- **Work Your Own Hours from Home**
- **Big Profits as Your Business Grows**

CONS

- ✗ **Competition with Other Distributors (lucky for you most are doing things ALL wrong!)**
- ✗ **Marketing Learning Curve**
- ✗ **Network Marketing Companies Often Teach You the Wrong Way to Market YOUR Business (which is why you need a good sponsor who knows what to do... I've got you!)**
- ✗ **Sponsors Often Disappear Once You Join (NOTE: I won't disappear on you ;)**

LET'S WRAP THIS UP!

All of these 5 strategies are proven ways you can start using TODAY to make money from home!

If you'd like personal 1-on-1 help to make money from home, I can guide you with my personal recommenda-

tions and trainings to help you make quick cash from the comfort of your home!
